

## Sodium Dichlorisocyanurate

**Molecular Formula** | C3O3N3CL2Na

**Function** | antiseptis, sterilization, water cleaning, bleaching, killing alga, deodorization

### Technical Index

Grade \ index value \ index name	Best quality	First grade	Qualified
Effective content of chlorine %?	60.0	58.0	55.0
Content of water %?	3.0	5.0	7.0
pH value of 1% solution	5.5-7.0		
Substance insoluble in water %?	0.1		

**Application** | As a nontoxic disinfectant, it is used in hygiene and disease control, medical treatment, aquiculture and plant protection etc., for example, antiseptis for drinking water, industrial water, dishware, swimming pool, poultry, fish feeding, environment and infectious diseases and its prevention. In addition, it is used to bleach cloth, kill alga and for wool shrinkage proof agent.

### Spec

**Form of Drugs** | White tablet and granule

**Granule** | 10-30 mesh

1 g/tablet	5 g/tablet	10 g/tablet	15 g/tablet	20 g/tablet	30 g/tablet
50 g/tablet	100 g/tablet	125 g/tablet	150 g/tablet	190 g/tablet	200 g/tablet

(Can be customized)

### Packing

Plastic barrel: 25kg/barrel, 50kg/barrel  
 Plastic woven bag: 25kg/bag, 1000kg/bag  
 Cardboard barrel: 50kg/barrel(can be customized)
